Physicians have found it so necessary that they alone have prescribed 100,000 packages. LAGER BEER.

WEBER'S BEER

Read What Professors Wayne and Fennel say of this celebrated Beverage.

We have recently made an examination of Weber's Lager Beer (Jackson Brewery), and also the brewery and extensive storing and fermenting vaults in the side-hill, in the rear, having a natural drainage.

The Beer we find of the same good quality as we found it upon a former analysis—full flavored, or excellent body and full alcoholic strength, in every respect a finished Malt Liquor, free from any adulteration.

In our examination of the beer vaults we could not help noticing the total absence of any musty or stale odor arising from decay of beer
